- ✓ for level control of liquids
- ✓ for level control of bulk material
- for leakage detection
- ✓ for position control of objects ... and much more.

These small sensors have all that makes the handling and application easy for the user.

**EasyMount** 

The mounting is really simple. The sensor itself is featured with excellent technical

characteristics and is very small in size. It can be mounted in various ways. It can be glued in the desired position, fixed with a cable tie or it can be mounted with one of the holders from the range accessories.

The sensitivity- or sensing distance adjustment is almost made by itself, thanks to the EasyTeach function.

In the course of the version with EasyTeach by wire is the model

of choice. The steps one has to pass through are easy and quick to complete, so the user does not lose time from looking after his core business.

Simply perfect
